

Connect your production process to your orders and inventory for **greater cost control – and total supply chain clarity**

Unleashed's inventory management software is perfectly suited to businesses in the manufacturing industry needing an accurate finished goods cost for every product.

Product assemblies, costed purchase orders, multi-currency, and advanced reporting are just a few of the powerful features that make this possible.

## Unleashed benefits

Assemble component products in Unleashed for a true finished goods cost.

Plan your production runs to ensure you can always fulfil orders.

Access real-time stock numbers and sales margins, all linked to your accounting system.

Keep track of stock across multiple warehouses, in multiple regions.

Buy or sell in any currency with all orders converted back to your base currency.

Add costs, such as freight and duty, for each PO during the receipting process.
